

Ioana Criclevit

Senior Data Analyst

London • 07759124932 • ioanapcriclevit@gmail.com • [LinkedIn](#)

Professional Summary

Senior data analyst with eight years of experience owning dashboards and reporting packs, investigating performance issues across complex operational datasets, and translating data into clear commercial recommendations for senior stakeholders. Track record of delivering structured and ad hoc analysis in fast-moving environments, building automated high-volume reporting solutions, and identifying root causes across multi-source datasets. Strong SQL and BI skills; experienced working across multiple business functions to surface actionable insight that drives operational performance.

Key Skills

Technical: SQL · SAS · R · Power BI · Excel · ETL pipeline design · Large-scale data processing (800M+ records) · Automated QA and data quality frameworks · Git · Code versioning.

Analysis & Reporting: Commercial and operational performance analytics · Dashboard and reporting pack ownership · KPI and SLA monitoring · Root cause investigation · Discrepancy resolution · Structured and ad hoc analysis · Multi-source data consolidation.

Stakeholder Engagement: Senior commercial stakeholder management · Translating complex data into clear, non-technical recommendations · Cross-functional collaboration in fast-paced environments · Coaching and mentoring junior analysts.

Professional Experience

Data Sharing and Identity Fraud Policy Lead

Home Office – London | Jan 2024 – Mar 2026

- Coordinated a cross-sector working group of 85+ organisations across banking, fintech, telecoms and law enforcement, translating diverse stakeholder input into structured, evidence-based recommendations for senior decision-makers.
- Produced executive briefings translating complex, multi-source analysis into clear narratives and actionable commercial recommendations for technical and non-technical audiences.
- Secured £200k in funding by translating a strategic analytical review into a clear, evidence-led business case for senior decision-makers.

Senior Data Analyst

Department for Work and Pensions (DWP) – London | Nov 2021 – Jan 2024

- Owned recurring dashboards and operational performance reporting packs, delivering structured and ad hoc analysis to senior stakeholders across a complex, multi-team environment.
- Investigated and resolved performance discrepancies across multiple large-scale datasets, performing root cause analysis and translating findings into clear recommendations for operational decision-makers.
- Established automated data quality frameworks and validation rules, materially improving the integrity and reliability of analytical outputs used to monitor operational KPIs.
- Designed and implemented ETL pipelines in SAS and SQL, processing 800M+ records with disciplined code versioning to ensure reproducibility and auditability.
- Translated ambiguous business requirements into defined metrics, dashboards and automated reporting solutions, improving access to timely, decision-ready performance data.
- Managed and coached junior analysts, setting objectives and reviewing outputs to maintain high delivery standards.

Junior Data Analyst

Department for Work and Pensions (DWP) – London | Oct 2019 – Nov 2021

- Built interactive dashboards and reports in R (ggplot2, plotly, R Markdown), translating complex statistical outputs into accessible, action-oriented reporting for non-technical audiences.
- Automated QA processes in SAS from scratch, reducing a week-long manual process to a single day and enabling higher-volume, more reliable reporting.
- Delivered concurrent publication-ready data products under tight deadlines, achieving 100% on-time delivery across a complex, interdependent workload.
- Extracted and manipulated data from operational relational databases using SAS and SQL, performing joins, filters, and aggregations to build analysis-ready datasets.

Data Analyst

Department for Levelling Up, Housing & Communities – London | Apr 2018 – Oct 2019

- Consolidated and analysed data from 317 separate sources to build a unified analytical dataset, supporting performance reporting across a complex national programme with multiple delivery partners.
- Automated data processing in R and SQL, reducing manual effort by 66% and delivering more reliable, reusable performance metrics.
- Produced analytical reports and data summaries for senior stakeholders, translating complex multi-source outputs into clear, actionable insights.

Education

MSc Social Statistics, Research Methods — Distinction: | University of Southampton

BSc Criminology — First Class Honours: | University of Southampton

Professional Development

Microsoft Power BI Data Analyst: | Microsoft (Coursera) | 2025

Basic Statistics: | University of Amsterdam (Coursera) | 2025

GitHub Foundations (Part 1 of 2): | Microsoft | 2025
